A Teaching Program In Psychiatry

A medical residency is part of a psychiatrist's medical education and involves paid, on-the-job training, which usually takes place in a hospital. You can choose a sub-specialty within the field, such as child and adolescent, geriatric or forensic psychiatry. Any sub-specialty generally requires an additional year or two of fellowship training.

What Education is Required to Become a Psychiatrist?

For example, psychiatry faculty work alongside other clinicians as preceptors in the Practice of Medicine module. The majority of preclinical teaching in psychiatry is taught within the two month course: The Nervous System/Mechanisms of Disease and is devoted to the study of behavior and psychopathology. Class lectures, frequently using video demonstrations, cover the phenomenology, neurobiology, and taxonomy of major psychiatric disorders.
