prevent breakdowns and reduce downtime on equipment that uses fuel or lubricating oils. This flexible separator is suitable for all marine installations and power stations. Use it as a purifier or clarifier, ensuring reliable equipment operation for longer.

Alfa Laval - MAB

Read PDF Alfa Laval Mab Separator Spare Parts Manual

Separation takes place in a solids-retaining bowl that can be arranged for either clarification or purification. In both cases, the contaminated oil is fed into the separator through the centre, and it is separated by centrifugal force into its various phases, the heaviest phase (sludge and water) being forced outwards to the periphery of the bowl.
