The company owes no tax to the United States on the first \$100 of Irish profits (10 percent of invested capital). It owes a tax before credits of \$15.75 on the \$150 of GILTI (\$250 of profit less the \$100 exempt amount). It owes \$10.50 (21 percent of \$50) on the interest from the Irish bank.

### How does the current system of international taxation work ...

International taxation is the study or determination of tax on a person or business subject to the tax laws of different countries, or the international aspects of an individual country's tax laws as the case may be. Governments usually limit the scope of their income taxation in some manner territorially or provide for offsets to taxation relating to extraterritorial income. The manner of limitation generally takes the form of a territorial, residence-based, or exclusionary system. Some governm
