### The Transparent Society: Will Technology Force Us To ...

In The Transparent Society, award-winning author David Brin argues boldly against the modern fixation on secrecy, reminding us that in an era of gnat-sized cameras and clothes-penetrating radar, it will be more vital than ever for us to watch the watchers. By ensuring accountability through "reciprocal transparency," we can detect dangers and expose wrongdoers.

### THE TRANSPARENT SOCIETY: Will Technology Force Us to ...

Transparency will not make ordinary people the equal of powerful corporations and governments. Citizens will still need watchdog organizations and advocacy groups to protect their privacy rights. But that does not lessen the need for transparency. As Brin says, surveillance technology is here and it will be used.

On these drawbacks of privacy, and the benefits of openness, The Transparent Society is both convincing and relatively nonpolitical, thereby reaching far more readers than it would positioned as politically right, left, or libertarian.

### The Transparent Society: Will Technology Force Us to ...

The Transparent Society (1998) is a non-fiction book by the science-fiction author David Brin in which he forecasts social transparency and some degree of erosion of privacy, as it is overtaken by low-cost surveillance, communication and database technology, and proposes new institutions and practices that he believes would provide benefits that would more than compensate for lost privacy.

### The Transparent Society - Wikipedia

Instead of requiring a crew of dozens, it is controlled by one semiskilled soldier. The price per drone will be minimal, since each unit fits in the palm of the hand. Minuscule and nearly silent, such remote-piloted vehicles, or RPVs, can flit between trees and over fences to survey the zone near a rifle platoon,...

### The Transparent Society | WIRED

The Transparent Society describes exactly this kind of tension, between citizens armed with new tools of vision and accountability, and tens of thousands of police who see themselves as doing a harsh, difficult and under-appreciated job. Cameras will get smaller, cheaper, more numerous and more mobile every year.
