I have an old, just new to me, White, model K209, sewing machine. I have plugged it in and it just constantly runs fast. The peddle is not pushed in, just wondering if I am missing something obvious? The needle is going up and down. I just don't want to burn the motor out while trying to figure this out. Thanks for any help. By S.D.

Today I'm going to show you a demonstration of the White Model 642 Sewing Machine. I picked this up from a thrift store a few years ago. The dials on this machine operate a little differently than I was used to, so I thought I would share the settings I used to achieve different stitches in case you were having similar problems.

I didn't know I was going to do this, but apparently I am... I'm trying to identify White labeled sewing machines from the 1950's, 60's and perhaps some 70's. The problem is that there is no data base of information to reference. I'm having to stumble upon different models, identify the model number and then hope I can find an advertisement or perhaps an original owner situation or sales ...
